## bio:

As a mentor, author and speaker, my mission is to empower women to find purpose, accept the mission, and **CREATE A DEEPER IMPACT**. I share personal stories on pulling through self-limiting beliefs, societal norms and influences. My talk is aimed at women who find themselves uninspired or stuck and have a strong desire to create a greater impact in the world.

I recently published my first book, *Her Fearless Hustle: A woman's guide to stop being mediocre and live with purpose*. Stop settling for mediocre, break through glass ceilings and be extraordinary.

I have over 10 years of experience as an entrepreneur. As a former instructor at Globe University, I taught courses on business law, business, and career development. Aside from speaking, I currently mentor professional women who are uninspired or bored in their business, to rediscover their passion and create a deeper impact.

## topics:

### **INVISIBLE 2 IMPACTFUL**

Stop being a passenger in your own life. You know you want MORE! It is time to stop settling for mediocre and finally live out loud!

### **THE CHANGE FACTOR ROI**

Understanding the most important differentiator between breaking through barriers and staying stuck is your ability and initiative to create change.
